In New England's mission -

In the glory of her past and the greatness of her future - and I believe that the same spirit of the Boston Tea Party, of Lexington, and the Civil War—the spirit that lavishly gave its blood, brawn, brains, and money to the upbuilding of the country - still lives in New England's sons and daughters, and waits only the word to call all New England to the still greater things which are before us.

I BELIEVE In the tremendous, transforming power of optimism; I believe that it is lack of faith which checks the development of
